

# 2010 CONSTRUCTECH 50

**Constructech Magazine has named BuilderTREND Solutions, Inc. to Constructech 50 List of 2010. The award recognizes the Top 50 most influential technology providers in the construction industry.**

Omaha, NE July 8<sup>th</sup>, 2010 -- BuilderTREND Solutions, Inc., a leading provider of Web-Based Project Management and Collaboration Software to the Residential Construction firms, announced today that it has been named to [Constructech](#) magazine's Constructech 50 list in 2010. BuilderTREND Solutions, Inc. has also been recognized by *Constructech* receiving two Top Products awards, in 2009 and 2010.

The *Constructech* 50 is a listing of the most influential construction technology providers with a strong and ongoing market presence. This resource is determined by the editors of *Constructech* magazine and is published in the annual *Constructech* IT Playbook.

Some of the criteria used in determining the list include having a strong product/service aimed at the construction industry, ongoing customer satisfaction and growth, as well as outreach and educational efforts for the construction industry, among other considerations.

"We are very excited and proud to have been recognized on this prestigious list," said Dan Houghton, BuilderTREND Solutions Inc. Co-Founder and EVP. "We are focused on providing affordable and user friendly software solutions to the residential construction industry. We are dedicated on working with our clients, understanding their needs, and investing in research and development to improve and offer new solutions. Being recognized by this award is a true testament to the dedication of the BuilderTREND Solutions employees and the great customer relationships that have been formed over the years.

Peggy Smedley, Editorial Director of *Constructech*, commented: "Choosing the top 50 solution providers in the construction space was no small feat. After much debate and discussion, we believe these 50 companies are bringing consistent and important solutions to those in the construction industry. And for their accomplishments, they should be commended."

To learn more about the winners of the 2010 *Constructech* 50, be sure to review the annual *Constructech* IT Playbook. This comprehensive resource is a one-of-a-kind reference guide to the technology landscape in residential and commercial construction today.
